# Why Karndean?

## At Karndean, we see flooring differently.

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs. By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

### Pet friendly

From muddy paw prints to household accidents and anything in-between, our low maintenance floors are designed with pets in mind.

# Designed to *Perform*

Hessian Oak VGW93T

### Kid friendly

Karndeans floors offer kids a safe and comfortable space to play, and parents an easy-to-clean surface.

### Durable

Karndeans Designflooring gives you the look and feel of natural products with the durability and resilience of luxury vinyl.

### Waterproof

Our waterproof floors stand up to spills of all sizes.

### Low maintenance

Easy to clean with a sweep and mop.  
Doesn't require sanding, varnishing  
or staining.

### Phthalate free

We pride ourselves on environmental awareness in the manufacture and supply of all our products, and can proudly say that all Karndean products are phthalate free.

# Designed for *Peace of Mind*

### Quiet underfoot

Karndean Designflooring offers formats that reduce noise transfer by up to 22dB – perfect for upstairs bedrooms, playrooms or attic/loft conversions.

### Lifetime warranty

Not only is a Karndean floor unique to your home, but it's guaranteed to last for years to come.

# From Our Home...

**It all began in 1973 when a former flooring installer created a small business from his family home.**

With the belief that luxury vinyl flooring shouldn't just be practical, it needed to be beautiful as well, Karndean was formed. The team set out to travel the world, seeking inspiration from natural materials for what now are the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of that house for several years with the family's trusty dog Smokey, the Great Dane who is still present on Karndean's logo today. For the family and Karndean's early employees — many who are still working with us today — these years bring back many fond memories.

Now stretching across the globe, beyond the walls of the original house, the Karndean family and employees continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

Fumo SP216 | Marrakesh SP220

# ...to Your Home

**Designing your home can be overwhelming. There are many elements that must fit together, from furniture to flooring, to fixtures and everything in between. Where to begin?**

We begin a new design with an inspiration, and we are most inspired by nature. What's your design motivation? Is it aesthetic, such as a throw pillow or the perfect paint chip? Or is it lifestyle, a place where you can dance in your pajamas and your babies (both two- and four-legged) can roll around and play?

No matter what drives you, Karndean was created with your needs in mind. We see flooring differently and by combining our original features with cutting edge design, you can create a simply beautiful floor that you will love for a lifetime.

Our simple method will help you navigate the selection process and design your perfect floor, taking you beyond picking a color and measuring the room. Let's get started!

## Meet Marcos & Lotta

and find out how Karndean set the foundation for their home.

[www.karndean.com/marcosandlotta](http://www.karndean.com/marcosandlotta)

Create more than a floor,

*Create a Designfloor*

1

## Imagine your space

Something as simple as drawing a picture of your space will put you in a creative mindset.

2

## Design ideas

Take inspiration from our installation patterns guide to design your floor.

3

## Which format and color?

With more than 180+ colors across three formats, we're sure to have a floor that fits your design style.

# 1. Imagine Your Space

On the next page, draw the space that you will be updating by following the example below.

Start with the shape of your space and entry points.

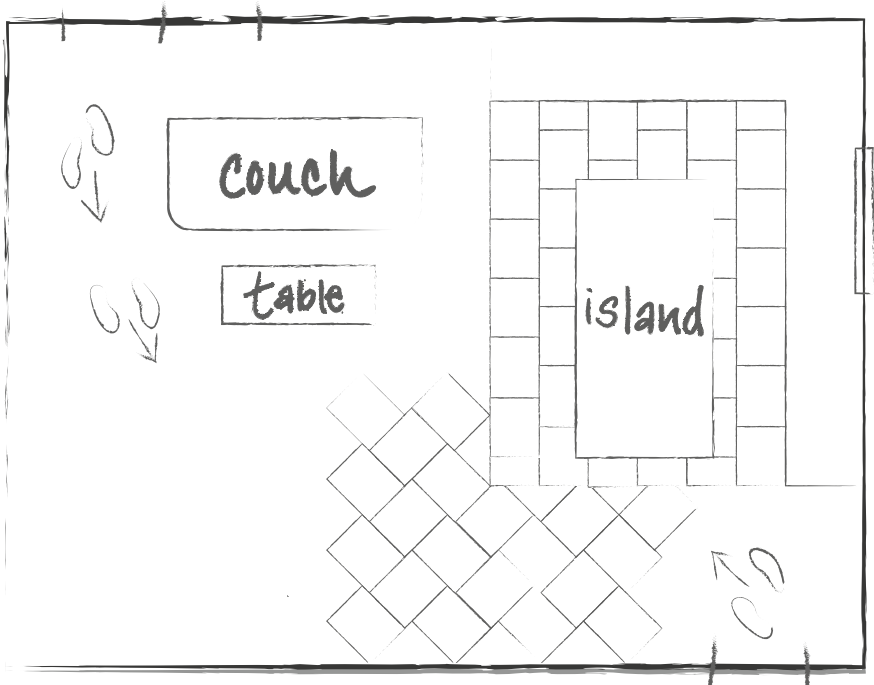

How do you walk through the room?

Are there any adjoining rooms?

Sketch fixtures in your space.

Take your space from sketch to reality.

■ Grey Riven Slate ST16 with DS10 3mm design strip

*Now it's  
your turn...*

## *Design Tip*

When planning the design of your floor, think of your most common footpath. Have your local retailer install the floor in that direction to guide guests throughout the space.

# 2. Design Ideas

## Choosing Your Installation Pattern

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. So how do you know which way you should lay your floor? Keep these pattern options in mind as you browse our three product constructions, as select floors cannot be laid in all of these patterns. Use our pattern guide for inspiration or to share with your local retailer.

# More Design Ideas

## Choosing Design Components

Add a personal touch to your gluedown floor with our variety of design components. See our full offering on pages 166-169.

# GLUEDOWN

## Design Strips

Design strips are narrow pieces of luxury vinyl tile which can be installed between our planks and tiles or used to create a slim border or inlay. They allow you to add visual interest to the design of your floor by adding a grout effect between tiles or between planks for a ship lap effect. The beauty of our strips versus real grout is that they won't stain or fade, and they don't have to be sealed.

Design strips are available in a variety of colors and widths. The wider the strip or bolder the color, the more impact. The choice of color is completely up to you.

■ Eisen CER13 with DS15 3mm design strip

Using design strips to create a border is also a popular way to frame your room. Use three or more strips to create a tramline border or keep it simple by using just one strip as a keyline border. Our brochure has examples throughout of how design strips can be used by themselves or in multiples to add a border around the room.

■ Argen WP414 with DS17 3mm and DS07 3mm and 10mm design strip

## Design Tip

Choose a contrasting strip color to make the color of the product stand out.

## Decorative Borders

To add a finishing touch to your design or to frame permanent fixtures, like a kitchen island, consider incorporating a decorative border.

Our decorative borders typically feature two colors: the background color will match your main floor and a contrasting color as the pattern within the border.

Some floors have more than one corresponding border. Use our colorful range key and product code listings on pages 166-169 to discover available options.

If you don't see a pre-designed border that suits your floor or your style, ask your retailer about creating a custom border.

## Design Tip

Border your room with half-cut tiles, then add the design border to draw the eye to the entire room.

## Features

Add a statement centerpiece to any room, entranceway or stair landing with one of our eight features.

Pick your favorite feature design, choose which colors you'd like to be in it (we recommend using the color of your main floor as the background color) and discuss with your retailer what size would best fit the space.

## Looking for a custom design?

If you're looking for a completely unique feature, your retailer can help you sketch out your idea and create a custom feature design.

# 3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are between each of these formats and how you know which one is right for you.

## RIGID CORE

We offer four industry-leading ranges of rigid core: Korlok Select, Korlok Reserve, Van Gogh and Knight Tile.

Salvaged Barnwood SM-RKP8209

Rigid core is a type of floating floor that clicks and locks into place and can be floated over most existing hard floors - no adhesive necessary.

An ideal alternative to laminate and engineered hardwood floors, Karndean Designflooring rigid core offers realistic visuals with the durability and waterproof qualities of luxury vinyl.

### Why would you want a rigid core floor?

**Floats over existing hard floors:**

Rigid core can be floated over most existing hard floor coverings.

**Acoustic qualities:** The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.

**Quick and easy to install:** Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.

Waterproof K-Core® technology allows for a fast installation over most existing hard floors and uneven subfloors.

■ Aged Oak SCB-KP98

■ Country Oak SCB81

  
*Need help finding  
your format?*

Contact your local retailer.  
Go to [www.karndean.com/  
findaretailer](http://www.karndean.com/findaretailer)

# 3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are between each of these formats and how you know which one is right for you.

## GLUEDOWN

Our gluedown ranges are:  
Art Select, Da Vinci, Van Gogh, Opus and Knight Tile.

Urban Spotted Gum KPI41

### Why would you want a gluedown floor?

-  **Design options:** Our widest range of designs, colors, textures and sizes.
-  **Personalization:** With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.
-  **Individually replaceable:** Ability to replace individual planks and tiles.
-  **Glued down:** Planks and tiles are permanently secured to the subfloor.

Because gluedown planks and tiles are installed individually, these products offer the highest level of personalization. This allows you to create a layout and design that makes your home more stylish and functional, while remaining affordable and faster to install than other types of hard surface flooring.

■ Glacier Oak SM-RL21

■ Casablanca SP219

# 3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are between each of these formats and how you know which one is right for you.

## LOOSE LAY

Featuring our K-Wave® friction grip backing that holds the product in place using a combination of weight and friction, our loose lay products require only minimal adhesive. Available in Karndean LooseLay and LooseLay Longboard.

□ Character Walnut LLP315

With Karndean LooseLay and LooseLay Longboard, you can have a floating floor with design flexibility and even incorporate multiple colors into one design. You can carry your chosen design throughout the space without the need for transition strips.

This is our most ergonomic flooring option, meaning it provides the most cushioning underfoot.

### Why would you want a loose lay floor?

**Acoustic qualities:** Our floating floors help to reduce noise transfer to the room below, perfect for playrooms, children's bedrooms or attic/loft conversions.

**Quick and easy to install:** Benefit from minimal disruption and a quick installation.

**Minimal subfloor preparation:** This varies by the type of floor you currently have.

What's great about loose lay not being fully adhered to your subfloor is that if you need to replace an individual plank or tile, it is quick and easy to do so!

□ Neutral Oak LLP307

□ Shadow Fabric Oak LLP331

Developed from a combination of straight and flowery grained European Oak boards, the delicate balance of grain found in Warm Brushed oak cannot be found in natural hardwood. The grain, combined with its sandy coloring and distinct registered emboss, forms a subtle, neutral floor to coordinate with many home styles.

Warm Brushed Oak RKP8215

■ Warm Brushed Oak RKP8215

■ Washed Walnut WP328

## Focus on Style

Traditional style gets a touch of luxury by incorporating metallic fixtures and even patterned fabrics. A great way to elevate a room is by choosing a lay pattern that is sure to strike up a conversation.

*Looking for more design styles?*

Visit our blog [www.karndean.com/ourblog](http://www.karndean.com/ourblog)

Our design team transformed American black walnut boards by applying a white wash, which both highlighted the wood's natural characteristics and created a unique palette of smoky gray tones. This modern neutral look will add character to any room in your home.

## SLATES

Two types of slate can be found in this range. Developed from stones found on the steps of the former Australian Parliament House in Melbourne, Canberra and Melbourne reflect the rough clefting of the natural stone. Our Welsh slates were developed from slate recovered from two northern Welsh quarries. Oakeley and Corris have been handcrafted to reflect the rugged texture of their natural counterparts.

# FIORE & OTONO

Our understated and classic marble visuals were inspired by natural white and blue-gray marble from world-famous Tuscan quarries. Tucked away in the provincial mountains near Carrara, these quarries have provided some of the finest marble, dating back to Ancient Roman times.

## WALNUT

These fantastic nature-grade, American black walnut boards were hand-selected due to the beautiful warm tones. The wide 6" boards, which are uncommon and expensive in real walnut, allow the color to drift from chocolate browns to dark mauves - creating a fantastic natural tonal floor and a rich canvas for any interior.

# LIMESTONE

After discovering a unique batch of limestone while visiting an English quarry, our design team used both faces of the stone to create two individual designs within one product. Initially etching the stone to create a bleached effect, we then used a high-pressure brushing process to uncover the stone's natural character. We fused these designs together to form what can also be interpreted as a concrete design.

## Design Tip

Frame the perimeter of your room with a border to add even more personality to the space.

# SLATE

The design team went to a number of different quarries in the Lake District, England, and sourced volcanic slate by hand, selecting pieces of this 300-million-year-old stone. Each piece was individually unique in character, and the detail of the linear markings and fractured features of the stones really pair well with an active family space.

# HEART PINE

Heart pine is considered to be recycled wood from first generation American trees, alive when the first settlers landed in the 1600s. The eclectic mix of features, including natural open grain and man-made markings, develop a look that only time can produce. We applied a very light brush and light satin oils to bring the blended tones to life.

41" x 10" (1050mm x 250mm)\*\*

\*\* Actual product size: 41.34" x 9.85"

# Karndean LooseLay Stone

**Thickness:** 4.5mm  
**Wear layer:** 20mil (0.5mm)  
**Bevel:** No

19.7" x 24" (500mm x 610mm)

\*Please note: as a feature of the design, these products incorporate a high color variation between individual tiles.

# Design Strips

## Compatible with:

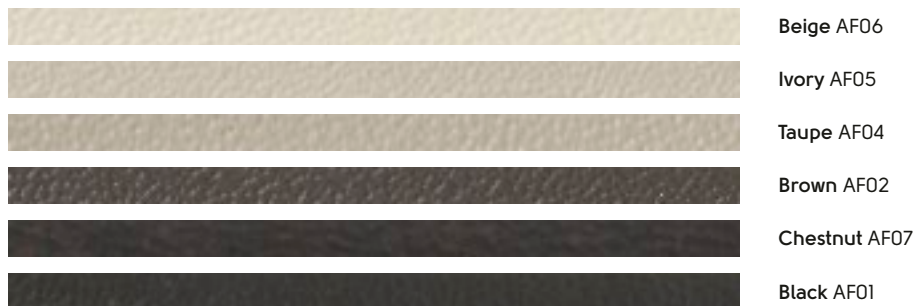

These design strips are available for use with all of our glued-down floors, in 3mm and 10mm widths.

## Compatible with:

Grout strips are 3mm wide and available for use with Art Select\*, Da Vinci\*, Opus and Knight Tile floors.

## Compatible with:.

Feature strips are 5mm wide and are available for use with Art Select\*, Da Vinci\*, Opus and Knight Tile\*\* floors.

\* Due to Art Select and Da Vinci's beveled edge, these strips can only be used between planks or tiles and not along a cut edge.

\*\* Knight Tile feature strip is supplied FREE on request with Knight Tile products only (82 linear ft per tube). One tube of feature strip provides enough material for one box of Knight Tile product. Supplied free, only if delivered with Knight Tile, as one consignment.

# Decorative Features

Cartwheel with border

Cartwheel

Celtic

Galaxy

Star

Nexus

## *Looking for a custom design?*

If you're looking for a completely unique feature, your retailer can help you sketch out your idea and create a custom feature design.

# Cleaning and Maintaining your Karndean Floor

Karndean Designflooring is durable and easy to look after. Unlike carpet, our hygienic floors do not hold dust, dirt pollen or other allergens. Our K-Guard+® enhanced surface treatment helps protect against everyday wear, spills and scuffs, giving you peace of mind that your Karndean floor will look great for years to come.

A regular sweep and mop with Karndean Clean or other pH neutral, fragrance free cleaner approved for use with vinyl floors is all you need to keep your Karndean floor looking its best and free of germs, including COVID-19. Visit the cleaning and maintenance section of our website where you can watch videos and view answers to frequently asked questions.

---

## Karndean Designflooring Floor Care Kits

Over time you may want to treat your floor to some extra care. Our Floor Care Kits contain Karndean Clean, Karndean Remove and Karndean Refresh solutions, and are available to order through your retailer.

Karndean Clean can be used for routine maintenance. We recommend using Karndean Remove and Karndean Refresh to rejuvenate your floor every six to twelve months, depending on wear.

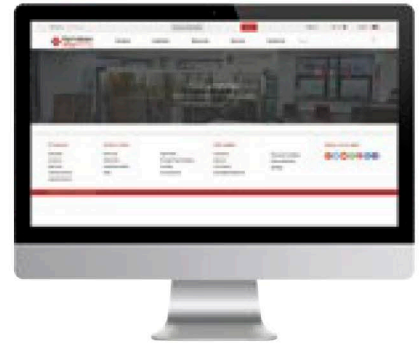

# Visit us online at [www.karndean.com](http://www.karndean.com)

## Find your nearest recommended retailer

Use our online search feature to find your nearest Karndean Designflooring recommended retailer. Simply enter your ZIP code to see who is in your area.

[www.karndean.com/findaretailer](http://www.karndean.com/findaretailer)

## Order free swatch samples

If you need some extra help selecting the best color for your room, visit [www.karndean.com](http://www.karndean.com) or text the product code to 877-722-2086 to ship samples right to your house!. These are designed to help you pick which product is right for you. We recommend visiting a local retailer to see the full color and design variation.

### Color & Pattern Reproduction

All our products are inspired by things we have seen in nature. Just as variation in both color and detail are part of the beauty of nature, so too are some of our designs. This means that with some of our products you will see natural variation when your floor is laid.

We are continually developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice. Karndean Designflooring owns all its designs and are protected by copyright.

Karndean Designflooring owns all their designs and are protected by copyright.
