At Karndean, we see flooring differently...

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

Designed for You

Every one of our floors is unique to us having been lovingly created by our in-house team. Our product designers select natural woods and stones to work with, taking the time to carefully replicate the knots, grains and textures found in these products into our designs. Working with these products they apply different techniques of staining, brushing and oiling to name a few to create the perfect look and feel bringing you a simply beautiful floor.

Corris LM22

Environmental Responsibility

Karndean Designflooring is a family-owned, leading supplier of luxury vinyl tile (LVT), in business since 1973.

We are aware that the activities of our company have an impact on the environment and are committed to the continual improvement of our manufacturing and logistical processes to ensure sustainability and best value for our customers and stakeholders alike. This commitment is driven from the top down, with training given to all employees on how they can contribute to the achievement of our environmental objectives.

We pride ourselves on environmental awareness in the supply and maintenance of all our products worldwide and regularly monitor our performance against key criteria, to ensure continual improvement of both our products and processes in this area.

Within our own premises, we reduce our environmental impact by adopting reasonable controls to prevent air, water, ground and noise pollution and keeping sites clean and tidy. We also work with our suppliers and sub-contractors to improve their awareness of environmental issues.

Pet friendly

From muddy paw prints to household accidents and anything in-between, our low maintenance floors are designed with pets in mind.

Kid friendly

Karndean floors offer kids a safe and comfortable space to play, and parents an easy-to-clean surface.

Durable

Karndean Designflooring gives you the look and feel of natural products with the durability and resilience of luxury vinyl.

Waterproof

Our waterproof floors stand up to spills of all sizes.

Designed to Perform

Phthalate free

We pride ourselves on environmental awareness in the manufacture and supply of all our products, and can proudly say that all Karndean products are phthalate free.

Low maintenance

Easy to clean with a sweep and mop. Doesn't require sanding, varnishing or staining.

Designed for *Peace of Mind*

■ White Painted Pine KP105 | Pate Limed Oak KP94

Quiet underfoot

Karndean Designflooring offers formats that reduce noise transfer by up to 22dB – perfect for upstairs bedrooms, playrooms or attic/loft conversions.

Lifetime warranty

Not only is a Karndean floor unique to your home, but it's guaranteed to last for years to come.

□ Weathered American Pine LLP335

From Our Home...

It all began in 1973 when a former flooring installer created a small business from his family home.

With the belief that luxury vinyl flooring shouldn't just be practical, it needed to be beautiful as well, Karndean was formed. The team set out to travel the world, seeking inspiration from natural materials for what now are the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of that house for several years with the family's trusty dog Smokey, the Great Dane who is still present on Karndean's logo today. For the family and Karndean's early employees – many who are still working with us today – these years bring back many fond memories. Today, Smokey embodies the shared qualities of a Great Dane and a Karndean floor - unmistakable, protective, dependable, loyal and a pillar of the household.

Now stretching across the globe, beyond the walls of the original house, the Karndean family and employees continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

Fumo SP216 | Marrakesh SP220

...to Your Home

Designing your home can be overwhelming. There are many elements that must fit together, from furniture to flooring, to fixtures and everything in between. Where to begin?

We begin a new design with an inspiration, and we are most inspired by nature. What's your design motivation? Is it aesthetic, such as a throw pillow or the perfect paint chip? Or is it lifestyle, a place where you can dance in your pajamas and your babies (both two- and four-legged) can roll around and play?

No matter what drives you, Karndean was created with your needs in mind. We see flooring differently and by combining our original features with cutting edge design, you can create a simply beautiful floor that you will love for a lifetime.

Our simple method will help you navigate the selection process and design your perfect floor, taking you beyond picking a color and measuring the room. Let's get started!

Meet Marcos & Lotta
and find out how Karndean set the
foundation for their home.

www.karndean.com/marcosandlotta

Create More Than a Floor,
Create a Designfloor

1

Imagine your space

Something as simple as drawing a picture of your space will put you in a creative mindset.

2

Design ideas

Take inspiration from our installation patterns guide to design your floor.

3

Which format and color?

With more than 180+ colors across three formats, we're sure to have a floor that fits your design style.

1. Imagine Your Space

On the next page, draw the space that you will be updating by following the example below.

Start with the shape of your space and entry points.

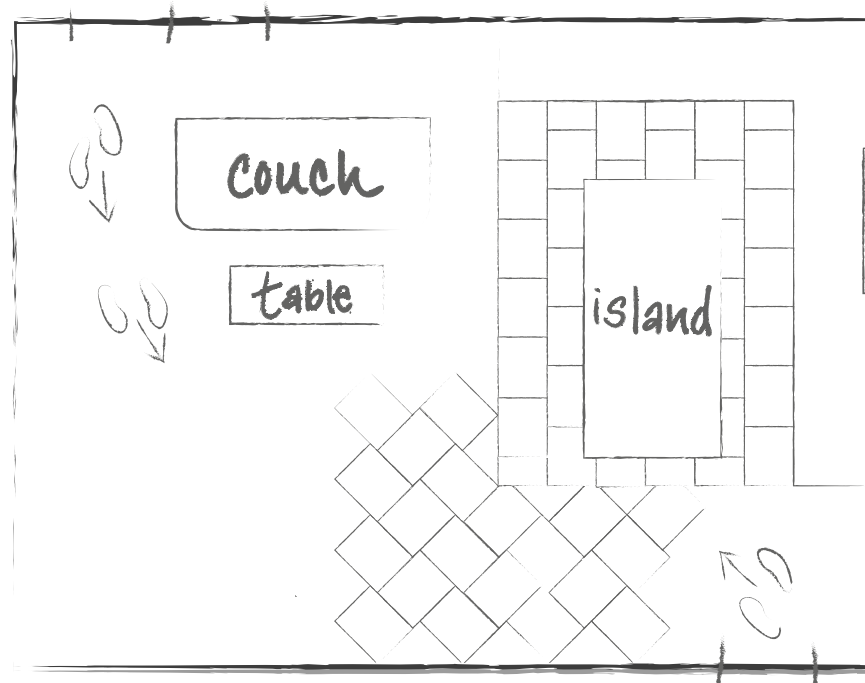

How do you walk through the room?

Are there any adjoining rooms?

Sketch fixtures in your space.

Take your space from sketch to reality.

■ Grey Riven Slate ST16 with DS10 3mm design strip

Now it's your turn...

Design Tip

When planning the design of your floor, think of your most common footpath. Have your local retailer install the floor in that direction to guide guests throughout the space.

2. Design Ideas

Choosing Your Installation Pattern

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. So how do you know which way you should lay your floor? Keep these pattern options in mind as you browse our three product constructions, as select floors cannot be laid in all of these patterns. Use our pattern guide for inspiration or to share with your local retailer.

More Design Ideas

Choosing Design Components

Add a personal touch to your gluedown floor with our variety of design components. See our full offering on pages 166-169.

Design Strips

Design strips are narrow pieces of luxury vinyl tile which can be installed between our planks and tiles or used to create a slim border or inlay. They allow you to add visual interest to the design of your floor by adding a grout effect between tiles or between planks for a ship lap effect. The beauty of our strips versus real grout is that they won't stain or fade, and they don't have to be sealed.

Design strips are available in a variety of colors and widths. The wider the strip or bolder the color, the more impact. The choice of color is completely up to you.

Using design strips to create a border is also a popular way to frame your room. Use three or more strips to create a tramline border or keep it simple by using just one strip as a keyline border. Our brochure has examples throughout of how design strips can be used by themselves or in multiples to add a border around the room.

Eisen CER13 with DS15 3mm design strip

Design Tip

Choose a contrasting strip color to make the color of the product stand out.

Argen WP414 with DS17 3mm and DS07 3mm and 10mm design strip

Decorative Borders

To add a finishing touch to your design or to frame permanent fixtures, like a kitchen island, consider incorporating a decorative border.

Our decorative borders typically feature two colors: the background color will match your main floor and a contrasting color as the pattern within the border.

Some floors have more than one corresponding border. Use our colorful range key and product code listings on pages 168-169 to discover available options.

If you don't see a pre-designed border that suits your floor or your style, ask your retailer about creating a custom border.

Borders don't have to just go around the edge of a room. Try using them in a large space or hallway to create the effect of an area rug, with the border acting as the edge, or by placing it around a feature in the room, such as a kitchen island.

Cumbrian Stone ST14 with DS10 3mm design strip and Dark Mackintosh border

Dune CER15 with AF06 3mm design strip and Davyne border

Design Tip

Border your room with half-cut tiles, then add the design border to draw the eye to the entire room.

Features

Add a statement centerpiece to any room, entranceway or stair landing with one of our features.

Pick your favorite feature design, choose which colors you'd like to be in it (we recommend using the color of your main floor as the background color) and discuss with your retailer what size would best fit the space.

Looking for a custom design?

If you're looking for a completely unique feature, your retailer can help you sketch out your idea and create a custom feature design.

Canberra LM06 with DS10 3mm design strip and Nexus feature

Formats at a Glance

We offer three types of product formats: rigid core, gluedown and loose lay.

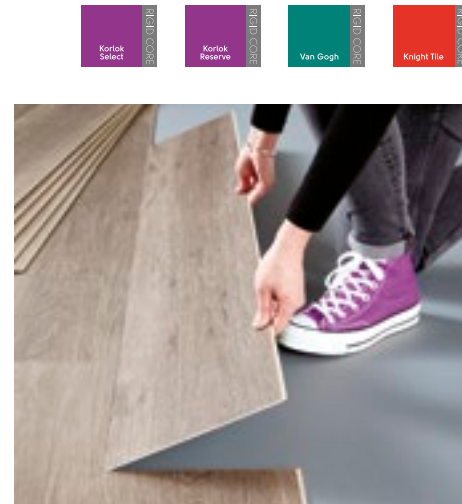

Rigid core

Choose rigid core when...

- You want superior acoustics, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You want to install over an existing floor such as ceramic tiles or floorboards, or uneven subfloor.
- You have a damp subfloor, sometimes found in new builds or extensions.

See page 24 for more details.

-  Click-locking mechanism
-  Reduces noise transfer
-  Quick and easy to install
-  Installs over most existing hard floors

Gluedown

Choose gluedown when...

- You want to create your floor, with different laying patterns, design strips and decorative borders.
- You want to be able to mix stone and wood designs and create a completely bespoke floor.
- You have a completely flat, dry subfloor, prepared by a flooring professional.

See page 26 for more details.

-  Individually replaceable
-  Design capabilities
-  No expansion gap required
-  Individual, glued down planks and tiles

Loose lay

Choose loose lay when...

- You want to reduce noise transfer, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You have a smooth or damp subfloor, sometimes found in new builds or extensions.

See page 28 for more details.

-  Individually replaceable
-  Quick and easy to install
-  Reduces noise transfer
-  K-Wave® friction grip backing

Washed Velvet Ash RKP8102

3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are and how you know which one is right for you.

RIGID CORE

We offer four industry-leading ranges of rigid core: Korlok Select, Korlok Reserve, Van Gogh and Knight Tile.

Salvaged Barnwood SM-RKP8209

Rigid core is a type of floating floor that clicks and locks into place and can be floated over most existing hard floors - no adhesive necessary.

An ideal alternative to laminate and engineered hardwood floors, Karndean Designflooring rigid core offers realistic visuals with the durability and waterproof qualities of luxury vinyl.

Aged Oak SCB-KP98

Why would you want a rigid core floor?

-  **Floats over existing hard floors:** Rigid core can be floated over most existing hard floor coverings.
-  **Acoustic qualities:** The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.
-  **Quick and easy to install:** Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.

Waterproof K-Core® technology allows for a fast installation over most existing hard floors and uneven subfloors.

Country Oak SCB81

Need help finding your format?

Contact your local retailer. Go to www.karndean.com/findaretailer

3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are and how you know which one is right for you.

GLUEDOWN

Our gluedown ranges are:
Art Select, Da Vinci, Van Gogh, Opus and Knight Tile.

Urban Spotted Gum KP141

Why would you want a gluedown floor?

-  **Design options:** Our widest range of designs, colors, textures and sizes.
-  **Personalization:** With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.
-  **Individually replaceable:** Ability to replace individual planks and tiles.
-  **Glued down:** Planks and tiles are permanently secured to the subfloor.

Because gluedown planks and tiles are installed individually, these products offer the highest level of personalization. This allows you to create a layout and design that makes your home more stylish and functional, while remaining affordable and faster to install than other types of hard surface flooring.

Glacier Oak SM-RL21

Casablanca SP219

Need help finding your format?

Contact your local retailer. Go to www.karndean.com/findaretailer

3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are and how you know which one is right for you.

LOOSE LAY

Featuring our K-Wave® friction grip backing that holds the product in place using a combination of weight and friction, our loose lay products require only minimal adhesive. Available in Karndean LooseLay and LooseLay Longboard.

□ Character Walnut LLP315

With Karndean LooseLay and LooseLay Longboard, you can have a floating floor with design flexibility and even incorporate multiple colors into one design. You can carry your chosen design throughout the space without the need for transition strips.

This is our most ergonomic flooring option, meaning it provides the most cushioning underfoot.

□ Neutral Oak LLP307

Why would you want a loose lay floor?

Acoustic qualities: Our floating floors help to reduce noise transfer to the room below, perfect for playrooms, children's bedrooms or attic/loft conversions.

Quick and easy to install: Benefit from minimal disruption and a quick installation.

Minimal subfloor preparation: This varies by the type of floor you currently have.

What's great about loose lay not being fully adhered to your subfloor is that if you need to replace an individual plank or tile, it is quick and easy to do so!

□ Shadow Fabric Oak LLP331

Need help finding your format?

WEATHERED STEEL

As natural steel is exposed to the elements, it transforms from a smooth, shiny surface to a marked and weathered structure, due to the wind, rain and ongoing oxidation process. Our visuals reflect the dynamic patterning that results from this transformation.

and Performance

SCOTTISH BEECH

Manufacturers of real wood flooring have been 'fuming' or 'smoking' wood for hundreds of years. The well-balanced color variations in these planks showcase the rich charred tones and provide a warming foundation for any décor.

COUNTRY OAK

Evoking a farmhouse feel, Country Oak has the rustic appearance of unfinished planks without the need for waxing or sanding. A cool mid-brown coupled with oak grain detailing, this floor complements vintage and contemporary interiors alike.

Sought-after Designs Tailored to
Modern Trends

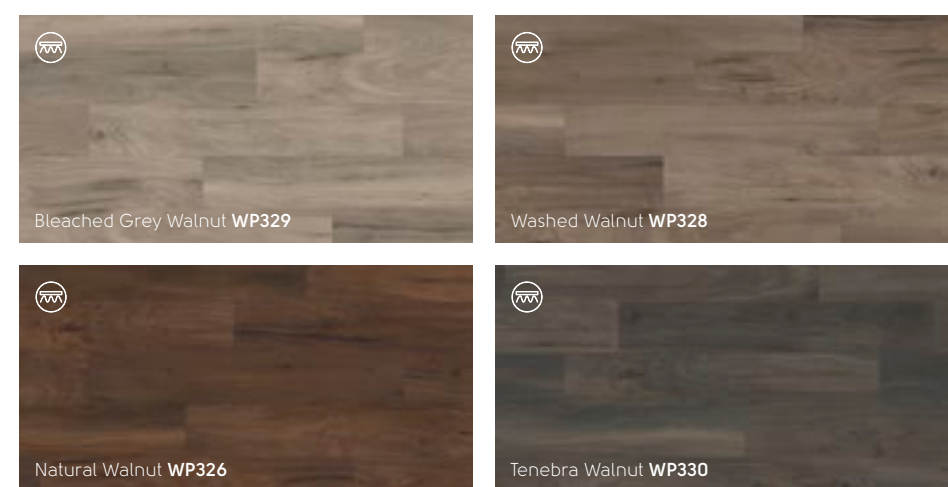

WALNUT

These fantastic nature-grade, American black walnut boards were hand-selected due to the beautiful warm tones. The wide 6" boards, which are uncommon and expensive in real walnut, allow the color to drift from chocolate browns to dark mauves - creating a fantastic natural tonal floor and a rich canvas for any interior.

ARRADO

With hints of blond and a base of mid to dark brown, and showcasing the wavy grain detailing of acacia, the wood that inspired our design, Arrado creates a warm atmosphere in any room. Its depth of color allows for a mix of furniture to blend harmoniously in a space.

LIMESTONE

After discovering a unique batch of limestone while visiting an English quarry, our design team used both faces of the stone to create two individual designs within one product. Initially etching the stone to create a bleached effect, we then used a high-pressure brushing process to uncover the stone's natural character. We fused these designs together to form what can also be interpreted as a concrete design.

Effortlessly Stylish with

Universal Appeal

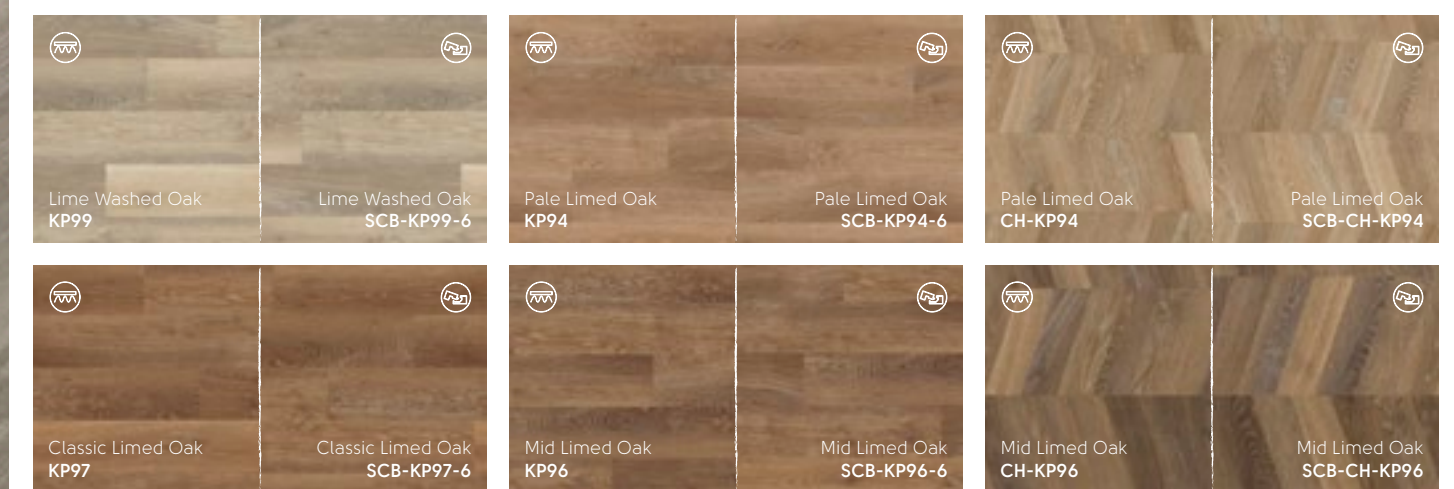

LIMED OAKS

These oak planks feature a limed, slightly textured finish. Liming is traditionally used to protect woods from natural elements and as a design choice it is terrific for rooms with both warm colors and neutral grays.

SLATE

The design team went to a number of different quarries in the Lake District, England, and sourced volcanic slate by hand, selecting pieces of this 300-million-year-old stone. Each piece was individually unique in character, and the detail of the linear markings and fractured features of the stones really pair well with an active family space.

HEART PINE

Heart pine is considered to be recycled wood from first generation American trees, alive when the first settlers landed in the 1600s. The eclectic mix of features, including natural open grain and man-made markings, develop a look that only time can produce. We applied a very light brush and light satin oils to bring the blended tones to life.

TRAVERTINE

Natural travertine is a type of limestone that develops when water from geysers or mineral springs bring deposits of dissolved minerals to the stone's surface, forming deep pits and troughs in the process. Our travertine tiles show the natural tumbled patterning in neutral colors.

Cleaning and Maintaining your Karndean Floor

Karndean Designflooring is durable and easy to look after. Unlike carpet, our hygienic floors do not hold dust, dirt pollen or other allergens. Our K-Guard+® enhanced surface treatment helps protect against everyday wear, spills and scuffs, giving you peace of mind that your Karndean floor will look great for years to come.

A regular sweep and mop with Karndean Clean or other pH neutral, fragrance free cleaner approved for use with vinyl floors is all you need to keep your Karndean floor looking its best and free of germs, including COVID-19. Visit the cleaning and maintenance section of our website where you can watch videos and view answers to frequently asked questions.

www.karndean.com/cleaning

Karndean Designflooring Floor Care Kits

Over time you may want to treat your floor to some extra care. Our Floor Care Kits contain Karndean Clean, Karndean Remove and Karndean Refresh solutions, and are available to order through your retailer.

Karndean Clean can be used for routine maintenance. We recommend using Karndean Remove and Karndean Refresh to rejuvenate your floor every six to twelve months, depending on wear.

Visit us online at www.karndean.com

Find your nearest recommended retailer

Use our online search feature to find your nearest Karndean Designflooring recommended retailer. Simply enter your ZIP code to see who is in your area.

Color & Pattern Reproduction

All our products are inspired by things we have seen in nature. Just as variation in both color and detail are part of the beauty of nature, so too are some of our designs. This means that with some of our products you will see natural variation when your floor is laid.

We are continually developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice.

Karndean Designflooring owns all their designs and are protected by copyright.
